Oracle (true formula)
Self-attention (1 layer)
Mean-pool (2 layers)
Flat MLP (2 layers)
(a) Training-set size
(b) Rank of A
(c) Sparsity of A (285k)
(d) Features, data growing as d squared
(e) Features, data fixed at 40k
(f) Depth (285k)
error in θ, ‖θ̂ − θ‖/‖θ‖
training sessions
true rank of A
fraction of entries of A set to zero
number of features d
number of features d
number of layers
